

PINAK DATTA

Full-Stack MERN Developer

+880 1794-026053 | pinakdattatp@gmail.com | Sylhet, Bangladesh

[GitHub](#) | [LinkedIn](#)

CAREER OBJECTIVE

Motivated Full-Stack MERN Developer and Computer Science undergraduate seeking junior developer or internship opportunities where I can apply my expertise in React, Node.js, Express, and MongoDB to build scalable, user-focused web applications, while continuously growing as an engineer committed to clean code and impactful solutions.

TECHNICAL SKILLS

Languages & Markup:	HTML5, CSS3, JavaScript ES6+, C++, Python
Frontend:	React.js, Tailwind CSS, Framer Motion, React Hook Form, React Router v6, CSS Modules
Backend:	Node.js, Express.js, REST API Design, JWT Authentication, Firebase Auth, Stripe Payments
Database:	MongoDB, Mongoose
Tools & Platforms:	Git & GitHub, Vercel, Netlify, Vite, npm/yarn, Axios Interceptors, Recharts, SweetAlert2
Other:	Figma (Beginner), Docker (Beginner)
Soft Skills:	Problem Solving, Time Management, Attention to Detail

PROJECTS

LocalChefBazaar — Full-Stack MERN Marketplace

2024 – 2025

Tech: React, Node.js, Express, MongoDB, Firebase Auth, JWT, Stripe, Tailwind CSS, Recharts

Live: localchefbazaar.netlify.app | Client: github.com/PinakDatta57/localchef-client

A role-based marketplace connecting home cooks with customers, featuring three fully separate dashboards for Users, Chefs, and Admins.

- Implemented JWT auth with httpOnly cookies; Stripe payments triggered only after chef acceptance.
- Admin dashboard powered by Recharts analytics with real-time order tracking and user management.
- Integrated Firebase Auth, imgBB image uploads, React Hook Form validation, and Framer Motion animations.
- Designed with scalable REST API architecture and role-based route protection on both client and server.

HomeNest — Full-Stack Real Estate Listing Platform

2024

Tech: React, Firebase Firestore, Firebase Auth, Tailwind CSS, MongoDB

Live: homenestpro.netlify.app | Client: github.com/PinakDatta57/homenest-client

Full-stack real estate platform allowing users to add, manage, browse, search, and review rental or sale properties.

- Secure Firebase authentication with protected routes for all property management features.
- Property listing with search, filter, and detailed property pages for seamless browsing.
- User review and rating system integrated with Firestore real-time database.
- Fully responsive UI built with Tailwind CSS for a seamless mobile and desktop experience.

EDUCATION

B.Sc. in Computer Science & Engineering

2023 – 2027

Sylhet Engineering College, School of Applied Science & Technology, SUST, Bangladesh

Core Areas: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems

Full-Stack Web Development Bootcamp — Programming Hero

2024 – 2025

Intensive MERN stack: React, Node.js, Express, MongoDB, Firebase, JWT, Stripe, REST API, Deployment

ADDITIONAL INFORMATION

Availability: Open to internships, part-time, and junior developer roles

Location: Sylhet, Bangladesh — Remote Friendly

Interests: Football, Logic Puzzles, Open Source Contribution
